January 1997 Newsletter

The President's Column...

We start 1997 with enthusiasm and optimism thanks to the superb job by the Post's 1996 officers. I want to thank and commend Robert Day and all the officers who led the Post last year for their hard work and dedication. The Post had a very successful year under their leadership, including sponsorship of a superb Regional Conference.

I am pleased to be the President of the Tulsa SAME Post for 1997. I believe the year presents many opportunities for the Post to grow and continue to improve its support to the membership, the community, and the Nation. The National SAME theme for '97 is "Partnering in Today's World". This theme is supported by three objectives:

- ❖ Objective Red:
Partner to Serve Members
- ❖ Objective White:
Partner to Serve Communities and Nations
- ❖ Objective Blue:
Partner to Shape the Future

Our local goals will directly contribute to the accomplishment of these objectives in the coming months.

- ❖ Promote the National SAME Theme
- ❖ Increase Post Membership, especially Young Members
- ❖ Demonstrate Innovation in Our Programs
- ❖ Expand our Scholarship Program
- ❖ Continue Partnerships with other Professional Societies
- ❖ Serve the Needs of Our Members
- ❖ Win 10 out of 10 SAME Performance Streamers
- ❖ Sustain the Post's Tradition of Excellence

The Post's officers and I are here to serve YOU! We accept that challenge for the coming year. Your input is important to the process of making the Post vibrant and effective. I encourage you to convey ideas and feedback on activities to me or other officers. Our e-mail addresses and phone numbers are listed elsewhere in the newsletter to assist you.

We have a great deal of talent in the Post and available to the Post. There are no limits to what we can accomplish in 1997 if we work to fully utilize everyone's talents. I challenge each of you to be involved and active in the Post this year.

ESSAYONS!!

COL Sanford

SAME on the World Wide Web...

The SAME is now on the World Wide Web! Visit the Tulsa District homepage under Professional Organizations for SAME meeting dates, monthly newsletters, spotlight flyers, etc.

January Meeting
Featured

Speaker . . . Stan Rankin
C.H. Guernsey
**"Meeting Demands of
Fast Track BRAC
Projects for the Navy"**

Date Tuesday, January 21, 1997

Time **11:30 a.m.**
Lunch, Meeting &
Presentation

Location . . Corps of Engineers
Tulsa District Office

Spotlight Presentation:

- Guernsey

About Our January Speaker - *Stan Rankin*

Stan Rankin is a 1972 graduate of the University of Arkansas, a registered professional engineer in the States of Oklahoma and Kansas, and actively involved in numerous professional and community organizations. Stan has been with C.H. Guernsey & Company (GUERNSEY) since 1979. His career at GUERNSEY has progressed from project mechanical engineer and project manager to director of marketing, and in 1988, he became responsible for all the administrative duties of the A&E Services Division. Later that same year, he was elected to the Board of Directors and was appointed the A&E Division Director. GUERNSEY's A&E Division provides services to a wide variety of clients from small communities to large industrial clients and federal clients such as the Department of Defense and the Federal Aviation Administration.

Mr. Rankin is also responsible for the firm's Total Quality Management (TQM) Program and conducts workshops to provide TQM training throughout the Company. In addition, he is responsible for the Company's very successful "partnering" program that is currently mandated on all major military projects.

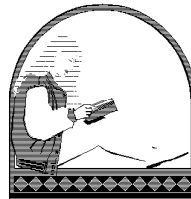

Presentation Topic:

Meeting Demands of Fast Track BRAC Projects for the Navy

Membership Update...

We need any address changes immediately to ensure continued receipt of the SAME newsletter. All address or representative change information may be called in to Joanne Hensley at 918-669-7500 or faxed to 918-669-7531.

Young Member Spotlight

Our current new member spotlight features Ms. *Michelle Lipe*, a project engineer with Dames & Moore. Michelle is a native Oklahoman, having been raised in Henryetta, and received both Bachelor and Masters degrees in Civil Engineering from the University of Oklahoma.

While at the University, Michelle spent several summers in international volunteer work and has continued by working with local schools to educate students on environmental and engineering issues. She sees the goals of SAME as a natural extension of educational service through an established professional organization.

Michelle's previous overseas experience has proven especially helpful as she recently traveled to Central Asia for Dames & Moore where she spoke on treatability

screening for surfactant enhanced groundwater remediation at the American Institute of Hydrology U.S./CIS Conference. She has authored a related article entitled "Micelle Enhanced Ultrafiltration and Air Stripping for Surfactant-Contaminant Separation and Surfactant Reuse," which recently appeared in *Groundwater Monitoring and Remediation*.

Sustaining Members Update...

We have The Sustaining Members now on the World Wide Web! Visit the Tulsa District homepage.

1997 Sustaining Member Spotlight Schedule...

The following is the list of Sustaining Member Firms and when their ONE-page flyer is scheduled to be included in our monthly Newsletter. Please submit your flyer before the end of the previous month to ensure that it gets included in the scheduled newsletter.

February: A&M Engineering & Environmental Services, CDM Federal Programs Corp., Fluor Daniel GTI, IT Corporation, Radian Corp.

March: Aerial Data Service, Foster Wheeler Environmental Corp., Jacobs Engineering Group, Inc.

Roberts/Schornick & Associates, Inc.,
Willbros Engineers, Inc.

April: AWT-Metcalf & Eddy, Inc.,
CH2M Hill, Franvel Corp., P.E.
LaMoreaus & Assoc., Inc., Roy F.
Weston, Inc.

May: Bay West, Inc., Coleman-Ervin-
Johnston, Inc., Geraghty & Miller, Inc.,
Law Engineering, Inc., Rust
Environment & Infrastructure

June: Bechtel National, Inc., Craig &
Keithline, Harding Lawson Associates,
LB&M Associates, Inc., SAIC,
Westinghouse Environmental

July: The Benham Group, Dames &
Moore, HNTB Corp., Malcom Pirnie,
Sherry Laboratories, Willbros
Engineers, Inc.

August: Louis Berger & Associates.
Enercon Services, Inc., HTB, Inc.,
Morrison Knudsen Corp., Smith
Associates

September: Black & Veatch S.P.C.,
ENSR Consulting & Engineering, Hub
& Garver, OHM Remediation
Services Corporation, SM Stoller
Corp.

October: Bruton, Knowles & Love,
Inc., Environmental Chemical Corp.,
ICF Kaiser Engineers, Parsons
Engineering Science

November: Burns & McDonnell
WCL, P I C, Inc., Perry Williams, Inc.,
Sverdrup Corp., Southwest
Laboratory & Affiliates

December: Swift & Guy Engineers,

TRIAX, Inc , URS Consultants, Inc.,
Woodward-Clyde Federal Services,
TC Consulting Group

Upcoming Events...

February Program - (February 18)

downtown Tulsa.

This is a joint meeting
with with ASME. The
program by Wallace
Engineering is on the
construction of the
Mayo parking lot in

Indications You're An Engineer ...

- Dilbert is your hero
- you stare at an orange juice
container because it says concentrate
- you can name 6 Star Trek episodes
- your wrist watch has more
computing power than a 486DX-50
- your idea of a good interpersonal
communication means getting the
decimal point in the right place
- you look forward to Christmas
because you can put together the kid's
toys
- you see a good design and still have
to change it
- the salespeople at Circuit City can't
answer any of your questions
- you have more toys than your kids
- you have a habit of destroying things
in order to see how they work
- you can remember 7 computer
passwords but not your anniversary
- people groan at the party when you

pick the music

- you thought the real heroes of
"Apollo 13" were the mission
controllers
- you think that when people around
you yawn, it's because they did not
get enough sleep
- your kid asks why the sky is blue and
you explain atmospheric absorption
theory

1997 OFFICERS & BOARD MEMBERS

As of 1 January 1997
